

ARE WE NOT CIVILIZED?

We're proud of what we do and what we make and we want to share it with you. All you need is a willing palate and an empty glass (or jug) to enjoy the straightforward pleasure of Civilized Vodka, Sakura, Gin, White Dog Whiskey, Rum, Whiskey and Single Malt.

The distillation of Old Mission Peninsula Rye produces a subtle sweet nose with oak and peat smoothness.

Hand selected Old Mission Peninsula Rye and pure, pH-neutral water from out well creates the foundation for our unoaked White Dog's subtle sweet nose.

Locally grown rye produces a spirit of uncommon smoothness that is then aged in white oak barrels for distinct characters of toffee and dark, dried fruit.

Distilled cherries render Sakura delightfully smooth with a cherry nose and distinct sweetness. This cherry vodka is perfect for sipping or mixing!

Descended from wine borne of Northern Michigan Riesling vines from our vineyard located on Old Mission Peninsula, our vodka graciously hints at the local ingredients with a bouquet of grape and a clean finish.

Our philosophy is simple: make the best spirits possible with the best local ingredients available and with the smallest impact on the environment.
